Our margin was the highest in over three years, at almost 70%, and with this release we're revising LOE guidance lower, and production guidance higher for Q3."

Greager continued, "Synergy savings for BCEI-HPR are exceeding our expectations, and we are now deep-into planning the integration of the previously announced Civitas mergers between BCEI, XOG, and Crestone Peak. We will provide additional information on those transactions as we progress toward closing in early Q4. Toward the end of this release we have included certain Q2 metrics for the individual companies making up Civitas."

## Second Quarter 2021 Results

During the second quarter of 2021, the Company reported average daily sales of 42.3 MBoe/d. Product mix for the second quarter was 49.5% oil, 22.8% NGLs, and 27.7% residue natural gas. The Company expects its third quarter average daily sales volume to be in the range of 41 to 44 MBoe/d with oil representing 48% to 52% of total volumes. The table below provides sales volumes, product mix, and average sales prices for the second quarter 2021 and 2020.

	Three Months Ended June 30,		
	2021	2020	% Change
<b>Avg. Daily Sales Volumes:</b>			
Crude oil (Bbls/d)	20,936	14,002	50%
Natural gas (Mcf/d)	70,391	36,249	94%
Natural gas liquids (Bbls/d)	9,655	4,815	101%
Crude oil equivalent (Boe/d)	42,323	24,859	70%
<b>Product Mix</b>			
Crude oil	49.5%	56.3%	
Natural gas	27.7%	24.3%	
Natural gas liquids	22.8%	19.4%	
<b>Average Sales Prices (before derivatives):</b>			
Crude oil (per Bbl)	\$60.85	\$22.42	
Natural gas (per Mcf)	\$2.31	\$1.19	
Natural gas liquids (per Bbl)	\$28.20	\$5.81	
Crude oil equivalent (per Boe)	\$40.37	\$15.49	

Capital expenditures were \$40.8 million for the second quarter of 2021. During the quarter, the Company completed 19 gross (16.9 net) wells, and turned to sales 11 gross (9.6 net) wells, 10 of which were standard reach lateral ("SRL") wells. Year-to-date capital expenditures through the second quarter were \$73.6 million versus previously provided full year guidance of \$150 million to \$170 million. The Company expects its third quarter capital expenditures to be in the range of \$55 million to \$65 million.

Net oil and gas revenue for the second quarter of 2021 was \$156.0 million compared to \$74.2 million for the first quarter of 2021. The increase was a result of the HighPoint merger as well as higher oil and NGL realized prices. Crude oil accounted for approximately 74% of total revenue for the quarter. Differentials for the Company's oil production increased slightly during the quarter to approximately \$5.28 per barrel off NYMEX WTI versus approximately \$4.75 per barrel during the first quarter of 2021, due to strengthening oil prices. The Company expects its third quarter 2021 oil differential to average between \$6.50 and \$7.00 per barrel based on current WTI strip pricing.

LOE for the second quarter of 2021 on a per unit basis decreased 3% to \$2.95 per Boe from \$3.05 per Boe in the first quarter of 2021. LOE on a per unit basis decreased during the second quarter due to increased volumes associated with the HighPoint merger. The Company's LOE guidance for the third quarter 2021 has been reduced to a range of \$2.85 to \$3.00 per Boe.

RMI net effective cost for the second quarter 2021 was \$0.96 per Boe, which consists of \$1.10 per Boe of RMI operating expense offset by \$0.14 per Boe of RMI operating revenue from working interest partners. RMI operating revenue from working interest partners is based on production volumes, and the fees are not tied to oil or natural gas prices. The Company's RMI operating expense guidance for third quarter 2021 remains at a range of \$0.85 to \$1.15 per Boe.

The Company's general and administrative ("G&A") expenses were \$12.1 million for the second quarter of 2021, which included \$2.2 million in non-cash stock-based compensation and \$1.3 million of other non-recurring G&A. Recurring cash G&A, which excludes non-recurring and non-cash items, of \$8.7 million for the second quarter of 2021 increased compared to first quarter 2021 primarily as a result of staff joining from HighPoint, as well as continued M&A activity since the closing of the HighPoint merger. On a per-unit basis, the Company's recurring cash G&A decreased 45% to \$2.25 per Boe in the second quarter of 2021 from \$4.07 per Boe in the first quarter of 2021. The Company expects its third quarter 2021 recurring cash G&A to be between \$8.0 million to \$9.5 million.

RMI net effective cost and recurring cash G&A are non-GAAP measures. Please see Schedule 6 and Schedule 7 at the end of this release for a reconciliation to the most comparable GAAP measure.

Expectations regarding business outlook, including changes in revenue, pricing, capital expenditures, cash flow generation, strategies for our operations, oil and natural gas market conditions, legal, economic and regulatory conditions, and environmental matters are only forecasts regarding these matters.

Additional factors that could cause results to differ materially from those described above can be found in BCEI's Annual Report on Form 10-K for the year ended December 31, 2020, in its subsequently filed Quarterly Report on Form 10-Q, and in its July 14, 2021 Registration Statement and Joint Proxy Statement, each of which is on file with the SEC and available from BCEI's website at [www.bonanzacrk.com](http://www.bonanzacrk.com) under the "Investor Relations" tab, and in other documents BCEI files with the SEC.

Schedule 6: Recurring Cash G&A

(in thousands, unaudited)

Recurring cash G&A is a supplemental non-GAAP financial measure that is used by management to provide only the cash portion of its G&A expense, which can be used to evaluate cost management and operating efficiency on a comparable basis from period to period. Management believes recurring cash G&A provides external users of the Company's consolidated financial statements such as industry analysts, investors, lenders, and rating agencies with additional information to assist in their analysis of the Company. The Company defines recurring cash G&A as GAAP general and administrative expense exclusive of the Company's stock-based compensation and one-time charges. The Company refers to recurring cash G&A to provide typical recurring cash G&A costs that are planned for in a given period. Recurring cash G&A is not a fully inclusive measure of general and administrative expense as determined by GAAP.

The following table presents a reconciliation of the GAAP financial measure of general and administrative expense to the non-GAAP financial measure of recurring cash G&A.

Schedule 7: Rocky Mountain Infrastructure (“RMI”) Net Effective Cost  
(in thousands, unaudited)

RMI net effective cost is a supplemental non-GAAP financial measure that is used by management to assess only the net cash impact the Company’s wholly owned subsidiary, Rocky Mountain Infrastructure, LLC, has on the Company’s consolidated financials. Management believes the net effective cost provides external users of the Company’s consolidated financial statements, such as industry analysts, investors, lenders, and rating agencies, with additional information to assist in their analysis of the Company. The Company defines the RMI net effective cost as GAAP midstream operating expense less revenue generated from working interest partners utilizing the RMI assets.

The following table presents a reconciliation of the GAAP financial measures of midstream operating expense and RMI working interest partner revenue to the non-GAAP financial measure of RMI net effective cost.

The Company defines Adjusted EBITDAX as earnings before interest, income taxes, depreciation, depletion, and amortization, impairment, exploration expenses and other similar non-cash and non-recurring charges. Adjusted EBITDAX is not a measure of net income (loss) or cash flows as determined by GAAP.

The following table presents a reconciliation of the GAAP financial measure of net income (loss) to the non-GAAP financial measure of Adjusted EBITDAX.
